**Patient instruction for Transrectal Ultrasound and Biopsy**

Your test is scheduled for:

---

At the Saginaw Office: \_\_\_\_\_ Bay City Office: \_\_\_\_\_ Midland Office: \_\_\_\_\_

Your time of the test is: \_\_\_\_\_

**IF YOU ARE TAKING ASPRIN, COUMADIN, VIOXX, MOTRIN, OR PLAVIX  
YOU MUST DISCONTINUE THEM 5 DAYS BEFORE YOUR BIOPSY**

When using Levaquin as the antibiotic you will need to follow these instructions:

- #1 The day before your biopsy you need to take one antibiotic tablet in the morning with food.
- #2 The day of your biopsy you will need to take on antibiotic tablet in the morning with food.
- #3 The day after your biopsy you will need to take one antibiotic tablet in the morning with food.
- #4 3 hours before you come in for your appointment you will need to give yourself an enema.

**If you have any questions concerning this, please call the office.**
